Notice 1437

(February 2018)

Information About Your Tax Forms

The IRS is reviewing The Bipartisan Budget Act enacted on February 9, 2018, that retroactively extended and modified numerous tax provisions covering 2017. As most tax forms were printed for distribution prior to the signing of new legislation, we recognize this may impact some tax forms ordered. To ensure you have the latest version of the tax product, we strongly encourage you to visit IRS.gov for updates on the implementation of this law. Updated versions of tax forms will only be available on IRS.gov.

Thank you and we apologize for any inconvenience.
